

ViTap

A stylish dispenser for chilled, sparkling and hot water.

Anti-scalding feature for hot water

Easy-to-clean removable nozzles

Stainless steel tap with two colour options

Two heights

- ViTap
- ViTap Plus

Choice of up to five different configuration options

Perfect water flow with zero splash

Drip tray with direct connection to waste water system

Benefits

- Choice of colours: available in silver or black
- Various combinations of chilled, sparkling and hot water to suit every environment
- Only the tap is installed on the work surface; the cooler-carbonator and boiler are concealed in the base cabinet
- BRITA dispensers are designed for a long service life, with components that are easily repaired or replaced – that's good for you, and for the planet

Filtration and hygiene

Water is H₂O - but not just. Tap water varies greatly from place to place. That's why we have created top-notch filtration solutions for over half a century. We are committed to excellent quality - and to outstanding hygiene. Our features ensure great water, at all times.

The wonder of water

Better water, enhanced well-being.

The water we drink is not just hydrogen and oxygen – it contains minerals and more.

That's because water is a dissolver extraordinaire: When rain falls, it soaks through the ground, gathering organic matter and minerals. This affects its taste, appearance and smell.

Mains water is treated and tested. However, there may be some residues from disinfection, piping, etc. That's where BRITA comes in. The right water composition tastes better, encouraging people to drink more. And hydration is key to health – for better well-being, concentration and productivity.

Good hydration is the basis for our body's metabolic processes and for our health. And staying hydrated is easier if water tastes good. That's why BRITA has a special department dedicated to taste.

– Birgit Kohler

Head of BRITA's Organoleptic Department,
certified water sommelier

The water cycle

Water is an outstanding solvent and can contain diverse substances

Water treatment

Added substances, e.g. chlorine, can affect taste

The power of filtration

Excellent water – an art and a science.

With BRITA's proven filtration solutions, you can be sure of excellent water – meeting the highest hygiene, quality and environmental standards.

At BRITA, water is our passion. We have channelled over half a century's expertise into our BRITA filtration and treatment technologies, and into each and every one of our BRITA VIVREAU dispensers.

From activated carbon to ion-exchange resins, pre-filters, post-filters, double-layer membranes and more – you will find effective filtration solutions for your specific needs.

What's more, you can be sure of Made-in-Europe quality. All BRITA VIVREAU filters are manufactured in Germany and the dispenser itself is assembled in Italy in our own production facility. We focus on sustainability throughout – using, for instance, natural coconut shells for our activated carbon.

Activated carbon
Reduces substances that impair taste and odour

Ion exchanger
Reduces limescale and metals, e.g. lead

The right balance
Preserves minerals in water

Dependable hygiene

Solutions that give you peace of mind.

BRITA's built-in safeguards keep dispensers squeaky clean by reliably removing bacteria, microbial cysts and more.

We take an end-to-end approach to hygiene, starting with the manufacture of our BRITA VIVREAU dispensers in Italy. Our recently established production facility is equipped with the latest hygiene technology. And our service technicians observe strict safety measures when they install your dispenser - ensuring the best-possible start.

Our dispensers' BRITA ThermalGate™ feature heats the tap to defend against contamination from external sources. And our optional BRITA HygienePlus solution - developed based on over 20 years' experience of the healthcare market - provides outstanding hygiene. Both have been tested and validated by independent institutes.

What's more, you will find cleaning instructions and guidance on our website - and we offer a proven portfolio of tailor-made cleaning products.

End-to-end hygiene
Starting with the dispensers' manufacture in Italy

Product features
BRITA ThermalGate™ and BRITA HygienePlus

Regular cleaning
Ensures safety and a long product life

PURITY C Dispenser C300/C500/C1100

Water filter: Excellent filtration designed for hot water dispensers.

Need piping-hot water? That's no problem for PURITY C Dispenser. This filter cartridge was specially designed for these situations. It protects the dispenser by reducing carbonate hardness, tackling the common problem of limescale head on. It also removes unwanted, taste-impairing substances. And its IntelliBypass® feature lets you control the degree of hardness - so you have just the right amount, for instance, for a perfect cup of tea.

PURITY C Dispenser filters are compatible with:

- VIVREAU Extra C-Tap
- VIVREAU ViTap

Benefits of BRITA PURITY C Dispenser

Reduces fine particles such as sand

Reduces metals such as lead

Reduces carbonate hardness

Reduces chlorine taste and odour

Reduces organic impurities

Post-filter
An extra layer of filtration for perfect results.

• **IntelliBypass®** for achieving the ideal mineral composition

Activated carbon filtration
Reduces substances that impair taste and odour.

• **Filter capacity:**
PURITY C300: 2,784 l
PURITY C500: 5,008 l
PURITY C1100: 8,480 l

Ion exchanger
Reduces limescale and metals e.g. lead.

• **Adjustable water hardness**
For great-tasting and great-looking hot drinks

Pre-filter
Removes coarse particles.

• **Protects equipment**
and therefore lowers dispenser maintenance costs

BRITA Accessories

One of the best things about BRITA VIVREAU: it is a complete solution. There's your dispenser, which you can combine with customised bottles. Everything is installed by professional service engineers. And there are further choices - such as flexible financing options.

Diverse accessories

Find the match for your dispenser.

The water dispenser is only one part of the picture: take advantage of BRITA products across the entire water dispensing-serving-cleaning cycle.

We provide premium customisable and reusable bottles that can be readily refilled via our dispensers. Where needed, the bottles can be stored in special crates precisely designed for the various types of BRITA designer bottles. Clean, filled bottles and used empties can be placed in separate, dedicated crates.

Furthermore, hygiene is always the top priority. We therefore provide all equipment necessary to properly sanitise BRITA VIVREAU dispensers and BRITA bottles. For bottles, we offer a choice of washing trays, including versions compatible with professional and domestic dishwashers.

And our best-practices tip: we recommend cleaning BRITA VIVREAU dispensers daily for extra peace of mind.

Are you looking for ways to shrink your carbon footprint?

Replacing plastic bottles with long-lasting BRITA bottles and corresponding accessories is an easy way to make a difference.

Customisable BRITA bottles

The perfect pairing: BRITA's sustainable bottles and dispenser solutions.

Make your BRITA bottle your very own.

Customised high-quality bottles are ideal for a variety of scenarios. Placed on meeting or restaurant tables, for instance, they provide a great opportunity to prominently position a logo or raise awareness of a particular message.

The glass designer bottles come in a variety of sizes and styles, so you can find the right option for your organisation's needs.

Additionally, reusable bottles are a stand-out way to communicate your commitment to the environment. Eliminating single-use plastic bottles helps shrink carbon footprints and makes a statement – and now more than ever, it's something your employees, guests and clients will recognise and appreciate.

At the same time, giving up pre-bottled drinks does not mean your water is any less refreshing: our dispensers simply and efficiently chill water on demand.

4. Stainless steel finish (as required)	To polish and protect stainless steel parts e.g. base cabinets

BRITA VIVREAU services

Expertise and support throughout the dispenser lifecycle.

Safety through maintenance

Regular and thorough maintenance is essential to ensure appropriate hygiene. Our dispensers are serviced 1-2 times a year as standard. Repairs made during the guaranteed lifecycle of the dispenser (5-10 years) are covered by our rental and full-service contracts.

Reliably high service quality

Our employees are audited on a regular basis. A supervisor visits our customers, ensures they are satisfied and verifies all tasks have been completed. We give our staff top marks – but also want confirmation from our customers. Ongoing training programmes ensure our service quality is excellent, and always improving.

Customer centricity

Our service engineers and customer service agents work hard to secure customer satisfaction. We can answer any questions you have during on-site visits or via our dedicated hotlines.

*Service Level Agreement

BRITA VIVREAU services

The benefits of our full-service maintenance offering.

1. Cleaning

- Dispenser (interior/exterior) and base cabinet (for floorstanding dispensers)
- Chemical cleaning of all parts that come into contact with water

- Dispenser tap and buttons or glass control panel

2. Visual inspection

- Robustness of dispenser and accessories
- Heat exchanger (cooling)
- Any exterior damage
- Any worn / defective parts
- Any potential leaks
- CO₂ hoses

3. Filter replacement

- BRITA filter(s) is replaced

4. Function test

- Set pressure / water (water pressure and pressure regulator)
- Function of the solenoid valves (timing)
- Carbonator-unit sensor probe
- Water meter check with documentation (digital or analogue)
- Buttons or touch display
- Temperature of dispensed water (cooling)
- CO₂ content (visual inspection of a glass of dispensed water)
- Flow rate of sparkling / still water
- Electronics (in line with local requirements)
- BRITA ThermalGate™
- Safety valve of the carbonator-unit
- CO₂ pressure hose (CO₂ bottle / pressure regulator)
- Cooling unit

5. General

- Refresher training sessions for staff (optional)
- Digital documentation of completed tasks

BRITA Italia
Excellent manufacturing and
quality assurance

Smart technology
Advanced equipment and
energy efficiency

Dedicated people
A skilled and
committed team

Reliable excellence, made-in-Europe quality

Filters developed and manufactured in Germany,
dispensers assembled in Italy.

At BRITA, we draw on over 50 years' experience as a family business to design, develop and build our pioneering products. By engineering and manufacturing our products ourselves, we can ensure exceptionally high quality, and scale production in line with demand.

Our manufacturing plants - including one opened in 2018 - employ advanced technology for greater energy efficiency. Our skilled and dedicated staff complete many tasks by hand, with a high degree of craftsmanship going into each and every dispenser.

Our diverse team of employees leverage tools, such as ergonomic lifting aids and tablets that display instructions. Hololens headsets help workers in Italy quickly resolve any issues: They can communicate their questions to the team in Taunusstein, and receive assistance in real time.
